## The Highlight: Colour Prediction Game

The most popular feature of Tiranga Game is the **colour prediction game**. This game is simple yet extremely exciting, which is why it attracts thousands of players daily.

## How the Colour Prediction Game Works

Every round lasts around 60 seconds. During this time, players select one colour from the available options:

- Red
- Green
- Violet

After choosing the colour, players place their bet. When the timer ends, the system randomly reveals the winning colour. If the selected colour matches the result, the player wins.

### Reward Structure

- Red or Green – 2x payout
- Violet – up to 4.5x payout

Because each round is very short, players can join multiple games in a few minutes. This keeps the excitement high and gives more chances to win.

The colour prediction game is ideal for beginners since it is easy to understand and requires no prior experience.
